

# Healthcare Administration

**16**

## Master of Science

MONTHS

**Available Online:** This program is delivered fully online.

The Master of Science in Healthcare Administration program is designed to provide education and research activities that will teach the student to develop or recognize opportunities to make health services delivery more effective or efficient. Students enrolled in the program will receive instruction on processes for evaluating and improving health policy. Graduates are employed as entry-level senior health service administrators or policy analysts. The level of position attained will vary according to the background and the experience the graduate brings to the job.
